ACID SYMPHONY ORCHESTRA

Location: Helsinki/Turku, Finland

Booking worldwide

Acid Symphony Orchestra is an undertaking by the Finnish Composer/Producer/DJ Jori Hulkkonen involving ten Roland TB-303 bassline synthesizers and either a TR-808 or a TR-07 drum machine, performing experimental electronic/techno.

The orchestra consists of 11 members. They have played in Germany, Finland, Turkey, Austria, Greece and The Netherlands, including a warm-up gig for Kraftwerk where the whole concept was given the official seal of approval from the highest authority available, Mr. Ralf Hütter.
